Professor of Mathematics and Preparatory Studies.

Librarian.

MISS DOAK BRADSHAW,
Professor of Vocal and Instrumental Music.

CLAY MCBRIDE,
Superintendent of Farm.

MRS. MARY LOVE,
Matron.

C. B. ARMENTROUT,
Bursar.

College Pastor.

VIEW OF CAMPUS, WASHINGTON.

WASHINGTON AND TUSCULUM COLLEGE

HISTORICAL SKETCH

WASHINGTON COLLEGE

Chartered as an academy in 1783, when this territory belonged to North Carolina, and as a college in 1795 by the Territory of the United States South of the River Ohio, Washington College was "the first real institution of learning west of the Alleghanies."

Our Scotch-Irish forbears had hardly reared their cabins before they built this "log college" in the wilderness.

General John Sevier, the leader of those sturdy patriots in the battle of King's Mountain, was one of the trustees, and it was on his motion that the College was named in honor of Washington. The territory was still infested by hostile tribes of Indians.

The founder and first President was the Rev. Samuel Doak, of Virginia, whose parents came from the north of Ireland. He graduated from Princeton in 1775, studied theology, and became "the apostle of learning" to this region. Mr. Doak was at the head of the institution for thirty-eight years.

WASHINGTON AND TUSCULUM COLLEGE

GREENEVILLE COLLEGE

Greeneville College was founded by Rev. Hezekiah Balch, D.D., who came from Mecklenburg, N. C., in 1780, and began in Greeneville the work of preaching and teaching. Its charter was granted by the Legislature of the Territory South of the River Ohio September 4, 1794. The second year Dr. Balch reported an attendance of one hundred students, therefore the College was successful from the start. Under his wise administration and that of his successors, Charles Coffin, D.D., and others, it became a most potent influence for good in the Valley of the Tennessee.

TUSCULUM COLLEGE

In 1818, Rev. Samuel Doak, D.D., left Washington College, which he had founded, and came to Tusculum. He opened a classical academy, which, under his son and successor, Rev. Samuel W. Doak, D.D., became Tusculum College in 1844. This institution felt the blighting effects of the Civil War, as did also the other two institutions, Greeneville and Washington Colleges. The students and professors alike arrayed themselves on one side or the other in the internecine strife. The buildings became barracks for soldiers, the apparatus was destroyed, the libraries scattered, and the ruin seemed complete.

WASHINGTON AND TUSCULUM COLLEGE

GREENEVILLE AND TUSCULUM COLLEGE

At the close of the war the work was begun of gathering up the fragments of Presbyterianism that were left in Tennessee. It was decided to resuscitate the educational work and unite Greeneville and Tusculum Colleges.

In 1868, therefore, Greeneville and Tusculum College opened its doors to students, with Rev. William S. Doak, D.D., as President. After consolidation the institution entered upon an era of greater prosperity. New courses of study were introduced, the teaching force increased, grounds extended, large and commodious buildings erected, and the number of friends and supporters enlarged.

During this period Washington College, fifteen miles away, was also growing steadily. Among other things, she had secured an endowment of \$60,000. The proximity, however, of the two institutions, and the fact that they were doing practically the same work, made it desirable, if not imperative, that they be united; so that a specific work might be done by each plant, and thereby remove all rivalry and secure greater economy.

WASHINGTON AND TUSCULUM COLLEGE

WASHINGTON AND TUSCULUM COLLEGE

For several years the Boards of the two institutions endeavored to solve the problem of union. Plan after plan was proposed, only to meet defeat. Finally in May, 1908, the Trustees of the two Colleges adopted a plan of union, giving to Washington the academic, agricultural and industrial work, and to Tusculum the collegiate work and domestic science. The name of the consolidated institution was made "Washington and Tusculum College."

While the settled policy of the Board is eventually to carry out the plan of union by making Tusculum the College and Washington the Academy, it has been found impracticable for the present to put into effect the plan as first outlined. For the coming year there will be at Tusculum Preparatory and Collegiate work and Domestic Science, and at Washington high-grade Academic work and Scientific Agriculture.

McCORMICK HALL, TUSCULUM.

THE COLLEGE AND ITS APPOINTMENTS

LOCATION

The College is situated at Tusculum, Tenn., four miles east of Greeneville and seventy-five miles east of the city of Knoxville. The Southern Railway passes within one mile of the College, Afton, two miles distant, being the nearest station. Usually students from a distance buy their tickets to Greeneville and reach Tusculum by the new pike road.

The Preparatory School is also on the Southern Railway, fifteen miles east of Tusculum and only ten miles south of the growing town of Johnson City. Washington College is the name of the station. One of the College farms lies adjacent thereto, but the buildings are a mile and a half distant.

Both locations are in the East Tennessee Valley, in close proximity to the lofty Alleghany Mountains, and are noted for their beautiful scenery, pure water, and healthful climate. The bracing atmosphere is peculiarly adapted to intellectual vigor, the students avoiding the bleak rigor of the more northern winter and the enervating influences of a southern climate. Freedom from the temptations incident to city life,

WASHINGTON AND TUSCULUM COLLEGE

and the high moral character of the communities, render it almost impossible for students to fall into habits of vice and dissipation. Such surroundings constitute a wholesome atmosphere for mind and heart alike.

GROUNDS

The College campus at Tusculum has been lately enlarged by the addition of eleven acres, and now contains thirty-one acres in all. A part is laid off in drives and walks and beautified with maples and evergreens; a part is covered with native forest oaks of magnificent growth..

The campus at Washington on which the buildings are erected comprises sixteen acres, shaded and adorned by stately trees, such as oak, beech, poplar, and chestnut.

BUILDINGS

The buildings of the College comprise McCormick Hall, Craig Hall, Virginia McCormick Hall, and Carnegie Library. These buildings are of brick, modern in architecture, well furnished, and supplied with electric lights, steam heat, and proper sanitary arrangements.

McCormick Hall

This is the main college building, and contains audience room, recitation rooms, library, reading room, society halls, music room, and Christian Association rooms. It is named in honor of Mrs. Nettie F. McCormick and son, Cyrus H. McCormick, of Chicago. It

WASHINGTON AND TUSCULUM COLLEGE

is one of the most handsome and substantial structures for college purposes in East Tennessee.

Craig Hall,

named in honor of Rev. Willis G. Craig, D.D., of Chicago, is a residence hall for young men. It accommodates seventy students. The rooms are well lighted, ventilated, heated by steam, and are furnished with single iron bedsteads, mattresses, bureaus, study tables, and toilet sets. An annex, lately erected, contains lavatory and shower baths. Everything has been done to make this hall as attractive and comfortable as possible.

Virginia McCormick Hall,

built by the generosity of Mrs. Nettie F. McCormick and named in honor of her daughter, is a residence hall for young women. This building is a modern four-story structure, costing \$20,000.00. It contains domestic science halls, reception hall, parlor, art studio, gymnasium, student rooms, bath rooms on every floor, lavatory, etc. Abundant provision was made against fire in the construction of the building, each floor being furnished with water connection, hose, and fire escape. The student rooms have plenty of light and sunshine, steam heat, double closets, bookcases, and are completely furnished.

Carnegie Library

This building, recently completed, is the gift of Andrew Carnegie, Esq., of New York City, and cost

WASHINGTON AND TUSCULUM COLLEGE

\$11,000. It is a handsome brick structure of two stories and basement. Aside from the commodious library rooms, it contains also a recitation room, Y. M. C. A. and Y. W. C. A. rooms, and a splendid gymnasium.

Besides the above buildings, there are Old College, used as a dormitory for girls, the President's home, two homes for professors, and the heating plant. The homes for the President and professors have been made possible through the kindness of Mrs. Nettie F. McCormick, of Chicago.

The buildings at Washington comprise

The Boys' Dormitory

The Boys' Dormitory was erected in 1895, and will accommodate fifty students. It has, in addition to student rooms, a reception hall, Y. M. C. A. room, society hall, and printing office. There has been recently installed in this building a water system with shower baths, which makes it a desirable and homelike place for the boys.

The Girls' Dormitory

The Old College building that has been a landmark for so many years, and which has recently been used as a girls' dormitory, was completely destroyed by fire a few weeks ago. But while the loss is heavy it is the plan of the Trustees to erect a new and modern dormitory in its place this summer. Temporarily, and until the new dormitory is completed,

OF THE
UNIVERSITY OF ILLINOIS
WASHINGTON AND TUSCULUM COLLEGE

the girls will find ample accommodations in cottages adjoining the campus.

Carnegie Building

This is a new building, completed one year ago. It is a handsome brick structure, containing recitation rooms, offices, library, music rooms, lavatory, and assembly hall to accommodate four hundred people. With this fine addition to the equipment already at Washington, the Preparatory Department of Washington and Tusculum is among the best.

All buildings are heated by steam and lighted by electricity. A water system has been installed, which will provide an abundance of pure water for the students.

Most of the money for the light and power plant was given by Mr. John C. Martin, of New York. The generator was secured through the efforts of Dr. W. L. McEwen and Mr. Robert Wardrop, of Pittsburg, Pa.

Salem Church, founded in 1780, and for many years under the same roof with the College, has always been closely identified with the work, and its house of worship has been at the same time the College Chapel. The building, erected at a cost of \$10,000, with a seating capacity of seven hundred and fifty, is admirably adapted to the uses for which it is designed.

In addition to the above there may be mentioned the Dean's home, and a farm of three hundred and forty acres, having on it the electric light plant, a flouring mill, a good dwelling house, a barn, and numerous outbuildings.

WASHINGTON AND TUSCULUM COLLEGE

THE PURPOSE OF THE COLLEGE

The consolidated institution is dedicated to the cause of Christian education, as were the old Colleges from which it sprang. These institutions were founded and perpetuated by men who thoroughly believed in the diffusion of knowledge under right moral and religious influences. In the development of the united College, the aim will be to give, along with thorough preparation for subsequent professional or business life, that broad religious culture which makes for the best, alike in the home and in the community.

A parent wishing to give his child an education can do no better than to visit this institution and inspect the plan of this venerable and well-justified school of learning, and science, and life.

ADMISSION

Examinations will be held on Tuesday, the day before the opening of school, August 29, at Washington, September 5 at Tusculum. Students desiring to enter any class will be examined in the studies which have been pursued by that class. All candidates for admission must furnish evidence of good moral character, and, if coming from another school, they must present a letter of honorable dismissal.

SESSION

The college year consists of one session of thirty-six weeks, divided into three terms of twelve weeks each. A vacation of ten days is given at Christmas.

WASHINGTON AND TUSCULUM COLLEGE

EXPENSES

Tuition

In Academy, per term.....	\$6 00
In College, per term.....	10 00
In Normal Studies, per term.....	10 00

Other Expenses

Table board, per term.....	\$24 00
Room furnished, light and heat, per term, \$6.00 to	7 00
Room, unfurnished, per term.....	2 00

Music and Elocution

WASHINGTON AND TUSCULUM COLLEGE

Tuition and room rent must be paid per term in advance. No deduction in room rent, or in tuition in the literary departments, for loss of time.

No deduction in tuition in music or elocution for loss of time for less than two weeks.

Board must be paid at least monthly in advance.

No deduction in board for loss of time for less than one week.

No one can become a student until his bills are paid.

A reduction of one-third in tuition in the literary departments is made to children of ministers and to students studying for the ministry in any denomination.

A graduation fee of \$5.00 is payable to the Treasurer by each member of the Senior Class one month before graduation, and in case of failure to pass, the amount will be refunded.

Rooms in Craig Hall, Tusculum, are occupied by young men, and are furnished with single iron beds, mattresses, bureau, study table, washstand, chairs, and toilet set, and are heated by steam and lighted by electricity. The above charge of \$6.00 per term includes these items, but does not include pillows, bed clothes, and towels, which must be furnished by the student.

Rooms in Virginia McCormick Hall, Tusculum, for young women, are furnished with single iron beds, hair mattresses, pillows, pillow cases, sheets, blankets, dresser, chairs, study table, bookcase, washstand and toilet set. Students will need to provide

WASHINGTON AND TUSCULUM COLLEGE

bedspreads and extra covering. There are large double closets in each room. Electric light, steam heat, bath rooms on each floor, hot and cold water.

Occupants of the two dormitories, Washington, will be charged \$6.00 each per term for a steam-heated room furnished with electric light, bedsteads, mattresses, pillows, dresser, table, washstand, and two chairs.

Students may engage rooms during the summer vacation by paying \$1.00 to the Bursar, otherwise the rooms will be assigned by lot on the day of opening. The \$1.00 paid will be deducted from the year's room rent; in case the room is not taken it will be forfeited. Students are held responsible for damage to property.

Students in the boys' dormitories must keep on deposit with the Bursar the sum of \$3.00 each, students in girls' halls \$2.00, and all other students \$1.00 each, to make good any damage to property. Any unused amount will be refunded.

SCHOLARSHIPS

Endowed Scholarships

1. The Graham Scholarship, \$500, for those preparing for the ministry in the Presbyterian Church.
2. The H. C. and W. W. Clark Scholarship, \$1,000, for those preparing for the ministry in the Presbyterian Church.
3. John H. Converse (Philadelphia) Scholarship, \$1,000, for needy and deserving students — "preferably for those preparing for the Gospel ministry."
4. John H. Converse (Philadelphia) Scholarship, \$1,000, for needy and deserving students — "preferably for those preparing for the Gospel ministry."

WASHINGTON AND TUSCULUM COLLEGE

5. Charles W. Henry Scholarship, \$1,000, by Mrs. Charles W. Henry in memory of her husband, for needy and deserving students.

6. Samuel Pollock Harbison Scholarship, \$2,000, by Mrs. S. P. Harbison in memory of her husband, for needy and deserving students.

7. Bertha Doak Stewart Scholarship, \$300. Income to be used in paying the tuition of a worthy young woman. The beneficiary is selected by the Woman's Missionary Society of the Mt. Bethel Presbyterian Church.

Farm Scholarships

Farm scholarships — invested in the Nelson farm . (the birthplace of the noted author and divine, David Nelson), to provide opportunities of self-help to worthy students without means — as follows :

1. The Caroline Robinson Scholarship for the benefit of girls.
2. The Seth Robinson Scholarship.
3. The Christ Church (New York) Sunday-school Scholarship.
4. The Elizabeth Wheeler Gardner Scholarship.
5. The John S. Randall Scholarship.
6. The C. Coles Dusenbury Scholarship.
7. The John Dwight Scholarship.
8. The Clara Leigh Dwight Scholarship for girls.
9. The Louisa M. Anshutz Scholarship.
10. The J. Blair Scribner Scholarship.
11. The Mary J. Winthrop Scholarship.
12. The Emily H. Moir Scholarship.
13. The Dorlan Scholarship for girls.
14. The J. M. Guffey Scholarship.
15. The H. B. Silliman Scholarship.

WASHINGTON AND TUSCULUM COLLEGE

The College is in possession of a few annual scholarships, to be used in cases of special need.

Students receiving aid from scholarships, or who are beneficiaries of the College in other ways, must maintain an excellent deportment and make an average grade of at least 70 in studies; otherwise such aid will be discontinued.

STUDENT HELP

The College is able to afford students various opportunities to assist themselves by performing some sort of service during the year. These opportunities are limited, but a number of students are in this way enabled to supplement their funds sufficiently to continue their studies. A stipulated amount will be paid for services performed.

PRIZES

The Bank and Trust Company Declamation Prize (Bank and Trust Company, Jonesboro, Tenn.), \$5.00 for the best declamation. Open to the young women at Washington.

The Shipley Recitation Prize (Albert L. Shipley, Jonesboro, Tenn.), medal for the best recitation. Open to the young women at Washington.

The Whitlock Scholarship Prize (J. T. Whitlock, Jonesboro, Tenn.), \$5.00, offered to the student at Washington making the highest average grade for the year.

The Brading Essay Prize (J. E. Brading, Johnson City, Tenn.), \$10.00, for the best essay on The Watauga Settlement. Open to all students at Washington and Tusculum.

WASHINGTON AND TUSCULUM COLLEGE

The Gray Essay Prize (Mrs. C. O. Gray, Tusculum, Tenn.), \$10.00, for the best essay on The Need of Forest Preservation. Open to students in Preparatory Department at both Washington and Tusculum.

The Moore Essay Prize (Miss L. V. P. Moore, New York), \$10.00, for the best essay on The Use of Books. Open to College students at Tusculum.

The Casson Essay Prize (Mr. Herbert N. Casson, New York City), a book, "The Life of McCormick," for the best essay on The Scotch-Irish. Open to all students at Washington and Tusculum.

The Naff Debate Prize (Dr. W. E. Naff, Greeneville, Tenn.), \$10.00, for best debate. Open to the six Juniors and Seniors at Tusculum making highest grade in debate in Noon Exercise during first two terms. Question to be assigned by Faculty.

The Miller Oratorical Prize (E. T. Miller & Co., Greeneville, Tenn.), \$10.00, for the best oration. Open to the young men in College Department at Tusculum. Subject to be assigned by Faculty.

The orations and essays must contain not less than six hundred nor more than twelve hundred words, and there must be at least three competitors for each prize.

STUDENTS' CHURCH HOME, WASHINGTON.

COURSES OF STUDY

There are two courses of study leading to the degree of Bachelor of Arts, the one emphasizing classical studies, the other modern languages and science. Each course covers a period of four years, and represents the same number of units of work.

CLASSICAL COURSE

In this course English, Latin, Greek, Mathematics, History, and French are the principal subjects of study during the Freshman and Sophomore years, and Mental, Moral, and Political Science for the remaining two years.

SCIENCE COURSE

In this course Science, Mathematics, Latin, French, German, and English are the principal studies for the first two years of the College; in the Junior and Senior years the same subjects are emphasized as in the Classical Course. Greek is omitted.

In the above courses the student is required to take a stated number of hours; of this number he may elect five hours in the first and second terms of the Junior year, and six hours in the third term Junior and the three terms of the Senior year.

WASHINGTON AND TUSCULUM COLLEGE

SPECIAL COURSES

In addition to the above courses leading to the Bachelor's degree, provision is made for the following courses, on the completion of which a certificate of graduation from the department will be granted, but with the requirement that students in Domestic Science and Music complete at least two years of the Academy before graduation.

DOMESTIC SCIENCE

Domestic Science embraces four years' instruction in cooking, dietetics, marketing, household economics, drafting, cutting, fitting, sewing, basketry, and embroidery.

MUSIC

The course in Music extends over a period of four years, and includes both elementary and advanced work in musical theory and composition, piano technic, harmony, voice culture, and musical history.

A fee of \$1.00 is charged for certificates.

IRREGULAR

The College will permit students who do not wish to take a regular course to choose such studies as they desire, provided always that in the judgment of the Faculty they are prepared by previous training to pursue them. This course leads to no degree, but a certificate will be given, when requested, showing what studies have been completed and the grades attained.

WASHINGTON AND TUSCULUM COLLEGE

RELIGIOUS INSTRUCTION

Washington and Tusculum is under no denominational control, though it has always been fostered by the Presbyterian Church U. S. A., and by virtue of the McCormick gift two-thirds of the Board of Trustees must always be members of said Church. But while it is in no sense sectarian, it is distinctively a Christian college, maintaining in all of its activities the strong faith and patriotic devotion of its founders. Always the devout recognition of God as revealed in His World and Word are counted upon as elemental and indispensable in the development of true manhood and womanhood.

As a regular college exercise there is held in the chapels each morning a short service of praise and prayer under the direction of the Faculty, and on each Sabbath morning at 10:30 there is public worship, at which all members of the College are required to be present. In addition to these services are the Sabbath-schools on Sabbath morning and the Y. P. S. C. E. on Sabbath evening, which all the students are expected to attend. Two Christian Associations at each department are connected with the College.

For his own good and his higher usefulness every Christian on entering college should by letter, either of commendation or of transfer, relate himself with the College churches. The Lord's Supper is celebrated once each term.

The systematic Biblical Instruction for entire course is stated in the Synopsis of Courses.

WASHINGTON AND TUSCULUM COLLEGE

DEGREES

IN COURSE

The degree of Bachelor of Arts is conferred upon students who have completed either the Classical or Science Course.

The Master's degree will be given upon satisfactory examination in postgraduate studies, not earlier than three years after graduation when non-resident work is done, or after one year of resident work.

Courses will be outlined in any department upon request.

A fee of \$10.00 is charged for A.M. diplomas.

HONORARY

The degrees of Doctor of Divinity and Doctor of Laws are sometimes conferred for marked scholarship or eminent public service.

CARNEGIE LIBRARY AND GYMNASIUM, TUSCULUM.

ACADEMY

The Academic Course has lately been revised and extended, and is now second to none in all the South in its scope and thoroughness.

The design is to prepare students to enter the College Course as outlined in this catalogue, and to furnish an excellent training for those who may not have the opportunity to complete a college education.

To enter this department one must have passed on Grammar, Arithmetic, Geography, United States History, and Tennessee History. A sub-preparatory class including the above studies is maintained for those who may not be prepared to enter the Academy. When a student's classification has been based on work done at other schools, it must be regarded as conditional, and may be changed when it is evident that a mistake has been made.

WASHINGTON AND TUSCULUM COLLEGE

DEPARTMENTS OF INSTRUCTION

POLITICAL AND SOCIAL SCIENCE

I. **CIVIL GOVERNMENT.** A thorough course will be given during the third term of the fourth year. Text-book: Ashley's American Government.

II. **POLITICAL ECONOMY.** Junior required course, three hours a week throughout the year. Text-book and lectures.

III. **CONSTITUTIONAL GOVERNMENT.** Senior required course, first term, three hours. Lectures. Text-book: Woodrow Wilson's The State.

IV. **INTERNATIONAL LAW.** Senior elective course, second term, three hours. Lectures and text-book.

V. **SOCIOLOGY.** Senior required course, third term, three hours. The evolution of society, the nature of the social mind, and remedies for existing evils will be discussed. Lectures and prescribed reading.

VI. **HISTORY OF AMERICAN POLITICS.** Senior required, second term, three hours. The rise and growth of political parties in the United States will be considered and their methods discussed. Prescribed reading and lectures.

MENTAL AND MORAL SCIENCE

I. **PSYCHOLOGY.** Sophomore required course, three hours a week throughout the year. Lectures and assigned reading.

II. **LOGIC.** Junior required course, two hours a week

WASHINGTON AND TUSCULUM COLLEGE

throughout the year. Text book, supplemented by lectures. Special attention will be given to criticism of arguments.

III. HISTORY OF PHILOSOPHY. Required course. (1) Junior, third term, four hours a week. Greek, Roman, and Medieval philosophy. (2) Senior, second term, four hours. Modern philosophy to Kant. (3) Senior, second term, three hours. Philosophers of the nineteenth century. The course will consist throughout of lectures and assigned reading, special attention being given to the influence of philosophical ideas on the social, political, and religious life of the race.

IV. ADVANCED PSYCHOLOGY. First term, elective, two hours a week, open to Juniors and Seniors. Lectures, assigned readings, and written reports of the student's investigations.

V. HISTORY OF EDUCATION. Senior required course, first term, two hours. The aim of this course will be to show the relation of the leading educational theories to the civilization of the periods to which they belong.

VI. ETHICS. Senior required, second term, four hours. Muirhead's Elements of Ethics, supplemented by lectures and collateral reading.

VII. THEISM. Senior required, third term, four hours. Lectures and text-book.

VIII. CHRISTIAN EVIDENCES. Senior required, third term, two hours. The aim of this course will be to show the place of religion, and in particular of Christianity, in a complete system of philosophy.

IX. PROBLEMS OF PHILOSOPHY. Senior elective, second term, three hours. Contemporary philosophical systems will be discussed. Special attention will be given to the problems of epistemology and metaphysics.

X. PEDAGOGICS. Senior elective, third term, three hours. This course will cover in outline the science and art of education. Among the topics treated will be the following: The application of psychology to education; the development of the

WASHINGTON AND TUSCULUM COLLEGE

student along two parallel lines, his inner life and his social nature; the relation of the school to the individual and to our social institutions; methods and courses of study; school organization and management.

GREEK

The reading of Greek depends upon three things: a knowledge of forms, a knowledge of construction, and a vocabulary. The first aim, therefore, is to secure to the student a thorough knowledge of grammar, a good working vocabulary, and the ability to translate ordinary Greek at sight.

The study is begun in the third year of the Academy. Bonner and Burgess's Elementary Greek Book is used as a preparation for the Anabasis. Some selections are read from Moss's Greek Reader. Four books of the Anabasis are read during the fourth year. Bonner's Greek Composition is also carefully studied.

Besides the preparatory work of the Academy, one year and one term of Greek in the College Classical Course, as follows:

FRESHMAN YEAR.—First and second term, Homer's Iliad; third term, Homer's Odyssey.

JUNIOR ELECTIVE.—First term, Lysias.

Goodwin's Greek Grammar is used throughout the course. Constant exercises are required in Greek composition in Freshman and Sophomore years. Jebb's Greek Primer is also used as a basis for the study of Greek Literature.

WASHINGTON AND TUSCULUM COLLEGE

LATIN

This department covers altogether a period of five full years, beginning with the first year of the Academy and extending into the Sophomore year. The completion of the full Latin Course is required of all taking either the Science or Classical Course.

The purpose is not merely mental discipline, but also to assist the student in securing a broad and liberal culture. Such authors are studied as will give both an insight into the elegance and beauty, power and dignity, of the Latin tongue, and an appreciation of the depth and richness of the thought of the ancient authors.

FIRST YEAR.—All three terms are given to Beginning Latin. Special attention to pronunciation, forms, syntax, and translations. Some attention to derivation of words.

SECOND YEAR.—The whole year is spent on Cæsar's Commentaries and prose composition. Special work on subjunctive and indirect discourse. Grammar study.

THIRD YEAR.—First term given strictly to Latin Prose. Second and third terms to Cicero's Orations against Catiline, and for Marcellus and Archias. Private life of the Romans. Sight reading.

FOURTH YEAR.—All three terms to the writings of Vergil, mainly the *Æneid*. Study in Latin Prosody. Vergilian verse. Vergil's literary influence. Sight reading.

FRESHMAN YEAR.—First term to XXI and XXII books of Livy. Authorities and style of Livy. Short course in Roman Literature. Third term to Horace—Odes, Epodes, and Satires. Horatian Metres. More attention to exactness and rhetorical excellence in translations.

WASHINGTON AND TUSCULUM COLLEGE

JUNIOR ELECTIVE.—First term to selections from Tacitus and Seneca. Study of the causes of the decline in Latin letters.

MATHEMATICS

In the conduct of this department the objects of Mathematics in a liberal education are kept constantly in view. The endeavor is to train the student to correct habits of thought, to develop in him the power of sustained attention, and of independent, candid, exact reasoning. Constant effort will be used to stimulate originality, hence the student will be encouraged to undertake original demonstrations and processes. Aid is given discreetly, with a view to encourage, not relieve the student's efforts. No important principle is passed without a rigorous demonstration. Neatness in presentation of work is insisted upon.

FIRST YEAR.—Elementary Algebra. Three terms, five hours a week. The fundamental laws, laws of exponents, formulas of multiplication, factoring, common divisors and multiples, complex fractions, simultaneous equations of the first degree, theory of exponents, radicals, an elementary presentation of powers and roots, quadratics.

SECOND YEAR.—Plane Geometry. Three terms, five hours a week. The usual theorems and constructions, including the properties of plane figures, the circle and measurement of angles, similar polygons, areas, regular polygons, and the measurement of the circle; original exercises. Applications to the mensuration of lines and plane surfaces.

THIRD YEAR.—(a) Solid Geometry. Two terms, four hours. The usual theorems and constructions, including the relations of planes and lines in space, the properties and meas-

WASHINGTON AND TUSCULUM COLLEGE

urement of prisms, pyramids, cylinders and cones; the sphere and spherical triangles; original exercises. Applications to the mensuration of surfaces and solids.

(b) Higher Algebra. One term, four hours. Theory of quadratics; imaginaries; inequalities; ratio and proportion; variation; the progressions.

FOURTH YEAR.—Higher Algebra. Three terms, four hours a week. Binomial theorem, logarithms, indeterminate coefficients, permutations and combinations, differential treatment of series, theory of equations.

FRESHMAN YEAR.—Plane and Spherical Trigonometry. Required, three terms, three hours a week. This course includes the development of the general formulæ of trigonometry, the theory and use of logarithms, and the application of trigonometry to the solution of practical problems.

SOPHOMORE YEAR.—(a) Analytics. Required, one and one-half terms, three hours a week. The analytic geometry of the straight line, the circle, and the conic sections. The general equation of the second degree.

(b) Surveying. Required, one and one-half terms, three hours a week. The use and adjustment of instruments. Original survey with compass and transit. Obstructions to the measurement of lines and angles. Resurveys. Allowing for change in variation. Errors and their distribution; error of closure. Leveling for profile and contours, etc. Plats, made to scale; tracings, blue print.

JUNIOR YEAR.—Differential and Integral Calculus. Elective, two terms, three hours a week. (1) The principles and formulæ of differential calculus, with applications to such problems as development of series, evaluation of indeterminate forms, maxima and minima, tangents, etc. (2) Principles and formulæ of integral calculus. Determination of length of curves, areas, volumes, etc.

WASHINGTON AND TUSCULUM COLLEGE

MODERN LANGUAGES

The department of Modern Languages includes German, French, and Spanish. The study of German begins with the third year Preparatory and extends into the second term of the Freshman year. French is required in the three terms of the Sophomore year, and is elective two terms in the Junior year. Spanish is elective in Junior and Senior years.

German

THIRD YEAR.—Joynes-Meissner's Grammar. Drill in pronunciation, forms and syntax. Translations and composition. Müller and Wenkebach's Glück Auf.

FOURTH YEAR.—Syntax; oral and written exercises. Translations of selected stories and poems. Glück Auf. Es War Einmal.

FRESHMAN YEAR.—Sturm's Immensee. Hillern's Hoehers als die Kirche. Schiller's Marie Stuart. History of German Literature.

French

SOPHOMORE YEAR.—Chardinal's Grammar. Super's French Reader. Drill in pronunciation, accidence and syntax.

JUNIOR YEAR.—Translation of selected stories. History of French Literature.

Spanish

JUNIOR YEAR.—First and second terms, Worman's First and Second Spanish Books. Third term, Marion and Des Garennes's Introduccion á la Lengua Castellana. Daily practice in conversation and writing Spanish. Verb drill.

SENIOR YEAR.—Monsanto's Complete Spanish Grammar. Verb drill. Reading short stories and poems, with oral and

WASHINGTON AND TUSCULUM COLLEGE

written reproduction. Johnson's *Cuentos Modernos*. Spanish periodicals. Original essays and sketches.

NATURAL SCIENCES

The work in this department aims to secure that knowledge and breadth of culture which comes only with a close study of the varied phenomena of nature and the principles which apply to them. The work consists of class-room exercises, laboratory practice, investigation and discussion of subjects assigned for special study, and informal lectures by the teacher.

PHYSIOLOGY, Blaisdell: Anatomy, Chemistry of Food, Digestion, Circulation, Respiration, the Nervous System, the Special Senses, Microscopic Work, and Chemical Experiments to show the Structure and Functions of the Organs of the Body.

GENERAL BIOLOGY, Huxley and Martin: The following series of animals and plant forms will be studied: *Amœba*, *Paramœcium* or *Vorticella*, Yeast Plant, *Hydra*, *Spirogyra*, Earthworm, Grasshopper, Fern, Seeds and Seedlings. The main object in view is to train the student in the exercise of his powers of observation and at the same time lay the foundations of the general principles of biology as a part of a liberal education.

BOTANY, Bergen: The Plant as a Whole, Forms of Plants, Contention with Physical Environment, the Structure of Cells and Tissues, the Classification of Common Plants, Laboratory Practice and Field Work.

GEOLOGY, Le Conte: The Formation of Rocks, Work of Water and Air, Origin of Valleys and Lakes, Movements of the Earth's Surface, Nature and Teaching of Fossils, Origin of Organic Life.

PHYSICS, Olmsted-Snell: The Principles and Laws of

WASHINGTON AND TUSCULUM COLLEGE

Mechanics, Hydrostatics, Hydraulics, Sound, Light, Heat, Electricity, Magnetism.

CHEMISTRY, Williams: Fundamental Laws, the Elements, Acids, Bases and Salts, Electrolysis, the Atomic Theory, Combination by Weight and Volume, Determination of Atomic and Molecular Weight, Periodic Law, Qualitative Analysis, Laboratory Practice.

ASTRONOMY, Young's General Astronomy: The Celestial Sphere, Determination of Time, Right Ascension, Declination, Longitude and Latitude, the Solar System, Parallax and Distance, Planetary Motions, Perturbations, Eclipses, Comets, Meteors, the Fixed Stars, the Nebular Hypothesis.

HISTORY

SECOND YEAR.—History will be studied throughout the entire year. The first term will be given to Roman History, the second to Grecian History, and the third to a short course in English History.

FOURTH YEAR.—Three hours a week for three terms will be devoted to American History. This course presupposes a grammar-school course in United States History. It will be divided as follows: First term, a study of colonial life up to 1763; second term, the circumstances leading up to the Revolution and the formation of a national government; third term, development of our social and political institutions since 1817. This course will consist principally of assigned readings and discussions.

JUNIOR YEAR.—(a) History of Civilization. Required course, second and third terms, two hours a week. This course attempts to trace the various elements of civilization from the fall of Rome through Medieval and Modern Europe to our own time.

(b) History of the English people. Elective, second term, three hours. Especial attention will be given to the development of English institutions.

WASHINGTON AND TUSCULUM COLLEGE

ENGLISH

The study of English begins with the Sub-Preparatory year in the Academy and extends through the entire Preparatory and Collegiate departments. Because of its extreme importance much time and care are given to this work. The course is intended to be thorough, intensive, and practical. The aim is to give a natural and correct expression, a general survey of American and English Literature, and at the same time to stimulate a taste for the best and purest that has been written in the English language.

FIRST YEAR.—Composition. The object of this course is to give a thorough drill in writing good English. Compositions are to be read before the class and criticised by it. Daily lessons in spelling. Assigned reading, and reports. Reproductions before the class of stories of the pupil's own selection.

SECOND YEAR.—American Prose. Selections from Franklin, Cooper, Irving, Poe, Hawthorne, Harte, Page, Burroughs, Stockton, and others. These books are to be read in class for the drill on reading intelligently. Essays are to be written on the lives of the authors, and on other subjects suggested by the books.

THIRD YEAR.—American Poetry. Selections from Longfellow, Bryant, Holmes, Lowell, Whittier, Poe, The Southern Poets, Carleton, and others. The same plan is to be followed as in American Prose. The object of these two courses is to give the pupil a general view of American literature, to be followed by a more critical study of it in the Sophomore year.

FOURTH YEAR.—English Prose. Selections from Goldsmith, Swift, DeFoe, Johnson, Addison, Lamb, Macaulay,

WASHINGTON AND TUSCULUM COLLEGE

DeQuincy, Ruskin, Carlyle, Scott. The same plan is to be followed as in the second and third years.

FRESHMAN YEAR.—Trench and Rhetoric. In the first term the Freshmen study Trench on Words and diction. The second term is given to sentences, figures of speech, qualities of style, etc., followed in the third term by a course in the Theory of Public Speaking. Text-book is supplemented by written work.

SOPHOMORE YEAR.—History of American Literature, and English Literature to the Romantic Age. Parallel reading from the representative writers in the different departments of literature. Reports. Critical essays.

JUNIOR YEAR.—English Literature (continued). During the first term the Juniors will study the Romantic Age, and during the second the Victorian Age. In the second term there is an elective course in Genung's Rhetoric, and in the third term one in Old English.

SENIOR YEAR.—Shakespeare and Chaucer (elective). The Seniors have Shakespeare and Chaucer elective throughout the entire year. A detailed study of Shakespeare's plays is made. Parallel reading and critical essays are required. In the last term Chaucer's Prologue, The Knight's Tale, and The Nun's Priest's Tale are read.

BIBLE

A liberal education includes a knowledge of the Bible. Systematic study of the Word of God is required of every student throughout the course, and is necessary to a degree. The aim of this department is to furnish that general acquaintance with the historical, political, literary, and religious material of the English Bible, and to give that thorough knowledge of its con-

WASHINGTON AND TUSCULUM COLLEGE

tents which every educated person should possess. The work comprises :

OLD TESTAMENT.—The origin and distribution of the race is taught, special attention being given to the lives and characters of the patriarchs. The early development and establishment of Israel as a people, the evolution of the Hebrew religion and form of worship, and the law, and the life-ideals which they have given to humanity, are studied.

NEW TESTAMENT.—The life of Jesus is the central theme of study, embracing His teachings and the founding of the Kingdom of Heaven in the world. The establishment of the Church, the great missionary spirit of the first century A. D., and the inspiring characters and work of the central figures in that movement, are thoroughly considered.

DOMESTIC SCIENCE AND ART

Domestic Science, from a pedagogical as well as from a practical point of view, is becoming recognized more and more by able educators as an important addition to the curriculum of the schools of to-day.

As food, shelter, and clothing bear such an intimate relationship to life itself, and the activities relative to these are natural ones, it seems wise to give to our children and young women a broad, intelligent, and sympathetic acquaintance with things that are so vital to life.

By offering the study of the theory and giving the opportunity of practically doing the work in an interesting way, Domestic Science gives the student something which is unique and of real value to her. It not only gives a practical working knowledge of things that pertain to the home, but one of its principal missions as an educational feature is the giving to the student a means of expressing, proving, and fixing knowledge gained in other studies. Chemistry, biology, and physics can be thus applied, to say nothing of the simpler studies, as, for example, the facts and processes of arithmetic, that are constantly required in the construction work of both cookery and sewing.

WASHINGTON AND TUSCULUM COLLEGE

LOCATION AND EQUIPMENT

The Department of Domestic Science is located at Tusculum, and through the generosity of Mrs. Nettie F. McCormick, of Chicago, is well equipped. The rooms are in Virginia Hall, on the first floor, and are large, airy, and well lighted.

The kitchen is arranged for individual work, each student having her own compartment. A steel range, larger utensils used in common, dishes, table linen, and silverware, that permit of the proper preparation and serving of meals, as occasion demands, are also provided. This is an attractive feature of the course.

The sewing room, with its large work tables, sewing machines, etc., is conveniently arranged for its purpose.

COURSES OF STUDY

Instruction is given in cookery, dietetics, marketing, serving, household economics, sewing (hand and machine), basketry, and embroidery.

The time for completion of the course is, for the average student, four years, when taken in connection with regular school work. Two or three hours per week are allotted to cookery, etc., and three hours to sewing. A partial course can not prepare one to do intelligent or effective work.

Sewing

FIRST YEAR.—The aim of the course during the first year is to make the girl more self-reliant and

WASHINGTON AND TUSCULUM COLLEGE

responsible, and to lead to self-expression in all the work. The subjects considered are:

1. Hand sewing. Useful articles made which require use of the different stitches that pupils should have at their command.
2. Different kinds of patching and darning, and application of each.
3. Christmas work. Stitches used for decorative purposes and original expression in articles designed.
4. Basketry. Designing and making of reed and raffia baskets. Weaving with raffia.
5. Machine sewing begun. One garment designed, drafted, and made. Care of machines, etc.

SECOND YEAR.—The course during this year is planned to give the student an opportunity to express herself still further as the work progresses in difficulty, and aims to correlate home interests and problems. The subjects considered are:

1. Drafting and making a complete suit of underwear.
2. Study of textiles begun. Estimating of materials required, etc.
3. Discussions on hygienic dress, economy and cleanliness in dress.

THIRD YEAR.—During this year simple dressmaking is begun. The subjects considered are:

1. Drafting and making a shirt-waist suit, and all the problems involved discussed.
2. Study of textiles continued.
3. Drafting of children's clothing. Making an infant's dress.
4. Drafting and making a linen coat suit.

WASHINGTON AND TUSCULUM COLLEGE

FOURTH YEAR.—During this year larger and more difficult problems in dressmaking are undertaken. The subjects considered are:

1. Designing, drafting and making an afternoon or evening dress and a lined coat suit.
2. Work along the line in which the student may be deficient will be pursued.

Cooking

FIRST YEAR.—The aim of the work in this year is to give the students a knowledge of all the food principles in a concrete way; to make them acquainted with the use of kitchen utensils and contrivances, and cultivate a desire to be orderly and neat in all their work. The subjects considered are:

1. Food principles and their functions.
2. Study and practice cooking of vegetables, milk, eggs, soups, meats, and simple flour mixtures.
3. Cleanliness and order in all work.
4. Care of kitchen, pantry and store-room.

SECOND YEAR.—The course of the second year plans to review the fundamental principles given in the first year, but in a more abstract way. Attention is given to the comparative value of foods and their composition, function and digestion. This course aims to make the girl more thoughtful in her work, to have her see the cause and effect of all she does, to understand the relation of cost of food to other household expenditures, and to teach her economy in the use of materials. The subjects considered are:

WASHINGTON AND TUSCULUM COLLEGE

1. Advanced cookery.
2. Composition of food.
3. Study of bacteria, as related to the home, begun.
4. General home management.
5. Care of dining-room. Setting table, etc.

THIRD YEAR.—The third year offers to the student a course in home nursing, invalid cookery and household economics. It aims to give her practical knowledge which she can use intelligently in the home. The subjects considered are:

1. Home nursing. Care of sick room, duties of nurse and care of patient. Taking the doctor's orders, giving medicine, taking temperature and pulse.
2. Emergencies. Treatment of burns, cuts, fainting, drowning, poisoning, etc.
3. Invalid cookery. Preparing food for patient. Study of digestibility of food. Invalid tray.
4. Household economics. Arrangement and care of the different rooms in the home. Care and cleaning of rugs, woodwork, china, silver, etc.
5. Canning and preserving.

FOURTH YEAR.—The fourth year finds the student ready to consider the problems of sanitation, plumbing, heating and ventilation. The aim is to give the student a knowledge of suitable dwelling places, to develop thoughtfulness in such essentials as selecting a house with regard to healthful conditions, economy of time and labor, etc. The subjects considered are:

1. General review of cookery.
2. Household accounts.
3. Study of bacteria continued

WASHINGTON AND TUSCULUM COLLEGE

4. Discussions on plumbing, heating and ventilation.
5. A course in practical serving.

SPECIAL COURSES

Camp Cookery

During the winter months a course in camp cookery will be offered to the young men. The course will cover the cooking of eggs, meats, vegetables, frying of fish, and making of hot breads and simple puddings, etc. Twelve lessons. Tuition, \$1.50, payable at or before third lesson.

Art Needlework

A course in art needlework, with instruction in different kinds of embroidery, fancywork, and lace making, will be given. Tuition, twenty-five cents a term.

Invalid Cookery

A course of ten lessons in invalid cookery will be offered to persons outside of the college students. This course is especially designed for those who may be called upon to cook for the sick. The course will cover the preparation and cooking of food for the sick, diets for the common diseases, and discussions on composition, digestibility, and combination of foods. Tuition, \$1.50.

MUSIC

The Universal Language, Music, is a Science and an Art. It is our design to render this department worthy of the patronage of those who are in search of a true musical education.

PIANO

The highest possible technical proficiency is required, but always as a means to a true musical intelligence and appreciation. Works of the masters and most approved modern writers will form the basis of all teaching.

FIRST YEAR.—Beyer's Piano Method; Kohler, Opus 50; Loeschorn, Opus 50; Bach, three little preludes, three two-part inventions; Mendelssohn, two songs without words; Haydn, one sonata; Mozart, one sonata; Beethoven, sonatina; Schumann, five pieces from Opus 68, 15 or 124.

SECOND YEAR.—Loeschorn, Opus 66; Bach, three-part inventions, little fugues; Mendelssohn, songs without words, or two musical sketches, two numbers from Op. 16; Haydn, Mozart, Beethoven, sonatas; Handel or Gavotte, variations in B-flat or in G; Chopin, nocturne and waltz; St. Saens, *Le Cygne*, or Reinhold, *Barcarolle Militaire*; Foote, *Caprice in C*, or McDowell's *Scherzino*, Op. 39; Chopin, *Polonaise* Op. 40, No. 1 in A; Paradies, sonata in A, or Daquin, *Le Coucou*.

WASHINGTON AND TUSCULUM COLLEGE

THIRD YEAR.—Loeschorn, Op. 67; Bach, inventions, two preludes and fugues from 48, also analyzed; three numbers from English or French suites or partitas; Scarlatti, two selections; Beethoven, sonata; Schubert, sonata; Chopin, impromptu, rondo, or polonaise; Tschaikowski, one selection; McDowell, one selection; Neupert, *By the Sea*, or Henselt, *Gondola*; Mendelssohn, prelude E minor, or Mayer, *Les Arpeges*, or Rubinstein, *Ondine* Op. 1; Henselt, *If I Were a Bird*, or Leschetizki, *Arabesque A-flat*; Godard, *Cavalier Fantastique*; Rachmaninoff, prelude, or Schumann, *Grillen*.

FOURTH YEAR.—Bach, two preludes and fugues, also analyzed; Handel, suite; Beethoven, sonata; Schumann, *papillons*, or any five pieces from Op. 12, 18, 21, 28, 32, 82, 99; Liszt, *Love Dream* No. 3, impromptu, rhapsody No. 11; *Gnomenreigen*, *Gondoliera*, or Wagner-Liszt, *Spinning Song*; Chopin, three etudes; Brahms, two selections; Rubinstein, selection; Chopin, prelude Op. 28, No. 16; Kullak, *From Flower to Flower*, or Chopin, etude Op. 25, No. 9; Seeling, *Lorelei*, or Sinding, prelude A-flat; Mendelssohn, etude B-flat Op. 104, Bk. 11, No. 1.

VOICE

It is the desire of this department to bring nature's method into use and to eliminate all artificialities. Clear enunciation and pronunciation is sought. Proper placement of tone and flexibility of voice are given much consideration.

FIRST YEAR.—Oral Technics: Breath control, voice placing, tone production. Concone's *Solfeggi*, Op. 9, for medium and high voices. Concone's *Solfeggi*, Op. 17, for bass-baritone voices. The *Solfeggi* of the old Italian masters. Songs especially suited to the capacity and needs of the individual pupil.

SECOND YEAR.—Oral Technics: Voice development. Sal-

WASHINGTON AND TUSCULUM COLLEGE

vatore Marchesi's Italian Studies for the development of mezzadivoce, portamento; diatonic and chromatic scales, triplets, arpeggio; appoggiatura, mordant, staccato and simple trill. Songs suited to the requirements of the individual pupil.

THIRD YEAR.—Oral Technics extending through the complete ranges of voice. Geurcia's Exercises for flexibility and velocity; English ballads; songs of Schumann, Schubert, Haydn, Grieg, von Fielitz, and Franz; Handel, arias from Messiah; Haydn, the Seasons and Creation; Mendelssohn, Elijah and St. Paul; Gaul, Holy City; Rossini, Stabat Mater. German diction; French diction.

FOURTH YEAR.—Oral and book Technics. Classical songs, French, Italian, English, German; arias from Italian, French, and German operas; arias from great oratorios; songs, Modern French, English, German, Russian, and Scandinavian; a pronouncing and reading knowledge of French and German; songs of Schubert, Schumann, Jensen, Liszt, Rubinstein, Lasso, Brahms, Strauss, Wolf, Lowe, and the Modern French school; solos from music dramas, Wagner, Berlioz, and Elgar.

MUSICAL THEORY

The value of the study of Musical Theory is now beginning to receive proper recognition, and can not well be overestimated. A knowledge of this important subject gives the student a means of self-direction and self-development, through which he may advance after graduation to maturity of taste and judgment.

FIRST YEAR.—Harmony, including a knowledge of the vocal clefs.

SECOND YEAR.—The Counterpoint, single, double, triple, and quadruple.

THIRD YEAR.—Canon and Fugue.

LIBRARY AND READING ROOM, TUSCULUM.

LITERARY EXERCISES AND DEBATE

One hour each week will be given to some form of literary and elocutionary exercise. This will be true of each class in all departments. The Sub-Preparatory students will be organized into a Junior Society, and will be required to take part in literary exercise, under the direction of some member of the Faculty, at least once every three weeks.

The Preparatory students will be organized by classes, and will write essays, declaim, or recite, either publicly, before all the students, or simply before their own class, as the Faculty may direct.

The College students will appear at the Noon Exercise on Friday, at 1 o'clock, of each week. At this exercise the Freshmen and Sophomores will declaim or read original essays, and the Juniors and Seniors will debate.

In addition to the Noon Exercise on Friday, there will be the Tuesday Exercise at 12:40, twenty minutes in length. This will consist of representations before the student body of the work done in the class room, by some representative or representatives of each class in turn. This is designed to give confidence in telling what one knows of truth, to help in expressing thought, and to impart instruction.

WASHINGTON AND TUSCULUM COLLEGE

Students will be graded upon all the work done in this department. Of the Juniors and Seniors, the six who receive the highest grade in the Noon Exercise on Friday for the first term will be appointed the Prize Debaters.

The exercises of this department are of extreme value. One can hardly overestimate their importance. For those going out to do any public service, whether as teacher, lawyer, preacher, or as a strong, substantial citizen, the training received here is invaluable. These courses lead men to recognize and develop a gift before unguessed. There is no one whose capacity, whether as citizen or scholar, is not enlarged by this discipline.

INDUSTRIAL DEPARTMENT

In 1892-3 steps were taken to provide ways and means for poor but worthy youths that were willing to work with their hands as well as their heads in the endeavor to secure an education. The College has a farm of three hundred and forty acres at the Washington Department; a good dwelling house of sufficient size to accommodate the farm superintendent and several students; a flouring mill, a barn, and numerous outbuildings. The farm belonged originally to the father of the well-known preacher and hymn writer, David Nelson, and is called for this reason the Nelson farm.

While it has been the purpose of the College not only to make use of this farm to provide opportunities for self-help to such boys as need help, but also to teach scientific agriculture, yet it has not been practicable to carry out this latter feature hitherto. It is the plan for this next year, however, to provide an instructor whose distinctive work will be the teaching of scientific farming, and it is hoped that this course will strongly appeal to the youths of East Tennessee, and that large numbers will find it possible to avail themselves of the advantages that this department will offer.

STUDENT ACTIVITIES

LITERARY SOCIETIES

The Literary Societies are recognized as valuable auxiliaries in developing and preparing young men and women for the real activities of life, and, therefore, receive the hearty encouragement of the Faculty.

Each society has its handsomely furnished hall. The regular meetings each week are of such a nature as to give proficiency in parliamentary usages, and to contribute to the cultivation of oratory and debate. While these societies are managed by their respective members, they are under the control of the Faculty and the immediate supervision of the Professor of Rhetoric and Oratory.

There are in all six societies in the two departments. At Washington, the Callimathian for the girls and the Junior Senate for the boys. At Tusculum, the Clionian and Alethean for the girls, the Philomathean and Philologian for the boys.

These societies give entertainments at stated times during the year, and usually offer prizes for excellence in oratory and debate and improvement in literary work.

WASHINGTON AND TUSCULUM COLLEGE

CHRISTIAN ASSOCIATIONS

Two Christian Associations, the Y. M. C. A. and the Y. W. C. A., are maintained by students at both Washington and Tusculum. These Associations help to develop a high type of Christian character and effort by encouraging personal work, Bible study, and a study of Missions. They each hold weekly devotional meetings, and monthly meetings for the transaction of business.

Officers of the Y. M. C. A.—At Washington, Ed. Donaldson, President; Frank Greenway, Secretary. At Tusculum, B. H. Bowers, President; Edward Gray, Secretary.

Officers of the Y. W. C. A.—At Washington, Lina Ford, President; Clara Armentrout, Secretary. At Tusculum, Emma Gahagan, President; Eppie Haws, Secretary.

ATHLETICS

The authorities of the College regard physical training, during the formative period of student life, as a matter of prime importance. To this end, therefore, every legitimate aid is given the students tending to encourage athletic sports.

The Athletic Associations foster an interest among the students in open-air exercise, such as baseball, basketball, tennis, etc. Football has been eliminated by the Faculty, unless the Rugby game, which is free from the dangerous features of the American game,

WASHINGTON AND TUSCULUM COLLEGE

be adopted by the students. In the fall a field day is held, which is given up entirely to athletic contests. Ten acres of athletic field at the College, and equally as much at the Preparatory Department, give excellent opportunity for field sports.

The new gymnasium is of supreme value in encouraging and developing all phases of physical culture for both young men and young women.

RULES AND REGULATIONS

ABSENCES AND EXCUSES

Each student has a privilege of absence from 10 per cent. of the assigned exercise in each department, these allowances to be reckoned as follows:

Exercises having 5 hours a week—6 absences.

Exercises having 4 hours a week—5 absences.

Exercises having 3 hours a week—3 absences.

Exercises having 2 hours a week—2 absences.

Exercises having 1 hour a week—1 absence.

This allowance is intended to cover incidental illness, or absences of absolute necessity.

Cases of protracted sickness shall be dealt with as exceptions and according to equity.

Any other absences from required exercises shall receive demerits.

General neglect will at any time be held a sufficient reason for exclusion from College.

A warning for misconduct forfeits, for that term, all privileges of allowed absence.

Any absences above the privileges allowed in any exercise shall be counted as a demerit and shall be so treated.

Permission for definite anticipated absence, for whatever cause, must be secured from the President at least two days in advance.

WASHINGTON AND TUSCULUM COLLEGE

It is understood that this allowance of absence in no case covers examinations, which in all exercises are strictly required.

All students are required to attend public worship and Sunday-school each Sunday in the College Chapel, but the President may excuse those who statedly attend religious exercises elsewhere.

DORMITORIES

The key to room is to be secured from the Bursar upon matriculation and the payment of deposit of \$3.00, and is to be returned to the Bursar before the deposit is refunded.

In case of a key being lost or not returned at the end of the year, the lock shall be removed and a new lock provided out of the money left on deposit.

Occupants of a room are held responsible for any damage to room or furniture. Occupants of Hall are responsible for damage to building outside of rooms. Students in Boys' Dormitories must keep \$3.00 on deposit with the Bursar, students in Girls' Dormitories \$2.00, and all other students \$1.00, to make good any damage to property.

All lights must be out and students in bed by 10 o'clock, except where special permission has been granted.

SOCIAL REGULATIONS

Young men may call on friends in the reception room of the Girls' Dormitory, walk on the campus, or play tennis together each Monday afternoon from 1

WASHINGTON AND TUSCULUM COLLEGE

until 4 o'clock, also each day from the end of the noon meal until 1 o'clock. Aside from this, young men and young women shall keep entirely separate except as special permission in rare instances may be granted by the President. Any violation of these privileges will forfeit all right to them.

DINING-ROOM

Proper decorum in all respects shall be observed in the dining-room. Meals shall be served only at regular hours and promptly. A charge of 15 cents shall be made for meals served in rooms except in case of protracted sickness. Visitors shall be charged for board at the rate of \$1.00 per day.

Without permission from the Matron students are not allowed in the kitchen at any time, nor in the dining-room save at meal time.

ATHLETICS

All athletic teams are under the direct supervision of the Faculty, and no one shall be allowed to play on any team whose deportment or scholarship will not warrant it. Nor can any one play in match games who has entered later than the beginning of the spring term.

GENERAL DEPARTMENT

Students, on arriving, are to enter at once upon their duties.

No boisterous language, use or handling of intox-

WASHINGTON AND TUSCULUM COLLEGE

icating liquors, deadly weapons or cigarettes can be tolerated on the College premises, nor shall any other use of tobacco be allowed save in a pupil's own room.

During study hours, from 8:15 a. m. to 2:30 p. m., and from the ringing of the evening bell until 9:30, all students are required to be in their place and at work.

All permission to leave the College grounds must be obtained from the President.

These rules apply to students rooming in private homes as well as to those in the dormitories, and no rooms are to be secured in private homes excepting in such homes as are approved by the Faculty.

A system of demerits will be in vogue, and all demerits shall be registered. When any student has received as many as fifteen he shall be warned and notice sent to his parents or guardian. Should he receive twenty he shall be warned a second time. Twenty-five demerits dismiss one from College.

Students are required, when asked, to give information in their possession that may concern the interests of the College.

Whenever the presence of a student is detrimental to the interests of the institution, he may be summarily dismissed.

The spirit as well as the letter of all these regulations shall be observed.

These rules may be amended or changed at any time by a vote of the Faculty.

WASHINGTON AND TUSCULUM COLLEGE

GRADING

Each instructor records all exercises before him upon a scale of merit ranging from 100 to zero. Promptness and regularity are held as merit. The daily grade, combined with the mid-term test, counts for two-thirds of the term grade in any subject, and the examination at the close of the term counts for the other one-third.

One must make a grade of 70 in order to pass. One falling below this grade receives a delinquent on examination, and is conditioned on that subject, or as much of the subject as he has failed on. Before he can receive a passing grade on the subject, this condition must be removed, but his grade mark in such cases shall never be more than 70 per cent.

Students are graded upon excellency in Rhetoricals, Essays, and Debate as in all other subjects.

EXAMINATIONS

Examinations are held regularly at the end of each term, covering the term's work, and are either written or oral, as the professor may direct. The results of these examinations are combined with daily recitations and mid-term tests to determine final class standing. See above.

Parents and guardians are furnished with information as to the deportment and class standing of students.

GENERAL INFORMATION

LIBRARY AND READING ROOM

Each department of the institution has its own library. The library rooms are well lighted, conveniently arranged, and easily accessible to Faculty and students. Although the libraries are still too small to meet the constantly growing demand, they have been steadily increasing for the past few years, valuable additions being received every year. We are trying at present to secure a permanent fund, the income of which shall be used for the purchase of books. Contributions to this fund are earnestly solicited. One hundred and twenty-five dollars has already been secured. The books in both departments have recently been catalogued and are now arranged for ready use.

Connected with the libraries are reading rooms, supplied with the leading current periodicals, open daily to all the students.

THE A. N. AND L. M. MOORE MISSIONARY LIBRARY

This library, which belongs to the College Department at Tusculum, was made possible through the bequest of Miss Lucy J. Moore, and is composed of works on missionary subjects. Additions are made

WASHINGTON AND TUSCULUM COLLEGE

yearly from the above-named fund. The library is free to all, and affords valuable help to the work of the Christian Associations.

BEQUESTS AND DONATIONS

The corporate name of the College is "Washington and Tusculum College."

Bequests and donations are earnestly solicited. Correspondence on this subject may be directed to the President, Rev. C. O. Gray, D.D., Greeneville, Tenn.

TEXT-BOOKS

Books are kept on hand or ordered from the publishers, and furnished the students, as far as possible, at reduced rates.

A WORD TO PARENTS AND GUARDIANS

It is an erroneous idea that students should be hastened through college in as little time as possible. It is an injustice and a lasting injury to the student, and no college can be honored in sending forth imperfectly-equipped men and women, however numerous. It is likewise important that students adhere closely to the course of study selected. One reason why some are so long in getting through is, that their attendance is not regular and continued. All are, therefore, urged to enter at the beginning and remain until the end of each session.

WASHINGTON AND TUSCULUM COLLEGE

POST OFFICES AND RAILWAY STATIONS

Mail for the officers and students at Tusculum should be addressed to Tusculum Postal Station, Greeneville, Tennessee, and for officers and students at Washington should be addressed to Washington College, Tennessee. Double daily mail and telephonic connections at both places.

The freight and express office for Tusculum is Greeneville or Afton, and for Washington it is Washington College. Care should be exercised in addressing freight and express packages designed for either point.

TRANSPORTATION FROM STATIONS

At the opening of the session all trains will be met and transportation furnished students at a cost of twenty-five cents each.

GIFTS OF THE YEAR AND ENDOWMENT

The friends of the College have remembered us generously again this year, some with small and some with larger amounts, but all of genuine value and deeply appreciated. By means of these gifts many improvements have been made at both departments of the College, so that we now have as comfortable surroundings for our students as has any college that we know. The endowment fund of \$100,000 has grown but little during this past year, but the prospects are excellent for an increased endowment of at least another \$100,000 during the coming year. The endowment that we have in hand is invested, all of it, at six per cent. on the best of security. The budget for the year is about \$30,000; the income from the students is about \$14,000; that from the endowment \$6,000. This leaves \$10,000 to be secured from individual contributions and other sources.

The only professorships that we have endowed at present are: that in Bible study by Mr. L. H. Severance, of Cleveland, and those of Mathematics and Latin by Mrs. Nettie F. McCormick, of Chicago. Before the present year is closed it is hoped that others

WASHINGTON AND TUSCULUM COLLEGE

will gladly add to this permanent fund of the College by the endowment of various professorships. We appeal especially to the Alumni to make a beginning toward such endowments, and ask that one and all send forward at as early a date as possible the amounts that they can give to their Alma Mater.

Lasting gratitude is due those who have given in either large or small amounts to swell the permanent funds of the College.

Gymnasium, Tusculum.
